

LIGHT COMBAT BELT 1.0

13-01897A

A light weight, comfortable and slim belt for your first line of gear.

FEATURES

- * Padded belt with 2 MOLLE webbings sewn on the outside for a comfortable carrying of any type of pouch or holster.
- * The MOLLE webbings are sewn on 8 cm wide MOLLE panels, with slots between the panels, so that the inner belt can be woven inside or outside, depending on whether you want MOLLE mounting or belt mounting for holsters and other accessories.
- * Remove the inside belt and use the riggers belt to combine the features of both belts.
- * On the inside of the belt, Velcro loop stripes are sewn to match/connect with a trousers belt that has Velcro hook on the outside.
- * In the top of the belt, four loops are sewn so you can attach a harness or suspenders if needed.
- * The foam/1 mm HDPE padding can be removed if you want an even slimmer belt.

MATERIAL

100% polyamide PU coated fabric.
100% polyester webbing
100% Polyethylene foam and plastic board.

N-P (XL/XXL): 106-148 cm.

LIGHT COMBAT BELT 1.0

13-01897A

Two side adjustable 40 mm side release buckle in the front.

The belt is padded with a thin plastic sheet and 5 mm foam. It keeps the belt slim but adds comfort and stability.

On the outside of the belt there are two rows of 25 mm webbing where pouches can be attached.

All Snigel pouches can be attached and carried on the belt.

To carry a pistol holster on the belt do the following:
1. Remove the side release buckle.
2. Pull the 40 mm webbing out of the tri-glide buckle.

3. Pull the webbing out from the slot where you want to carry the pistol holster.

4. Attach the pistol holster and reinsert the 40 mm webbing into the tri-glide buckle and side release buckle.

Attach the harness in the cord loops in the top of the belt if you want to use a harness.

The tri-glide buckles are inserted like shown above into the cord loops.
