

COVERT BACKPACK -21

29-00155

The covert back pack is called the "transformer" for a reason. In less than 15 seconds the backpack is transformed to a tactical ballistic vest with your weapon on your chest.

FEATURES

- * The bag has two main functions: Assault or personal protection.
- * For the operator the bag offers the possibility to transfer a civilian looking person to an assault ready operator in around 10 seconds.
- * In the bag you put the ballistic vest and ceramic plates, magazine, distraction grenades, radio with headset, police badge, etc. G36 or MP5 attaches to the inside of the bag and can easily be removed when the vest has been deployed.
- * The personal protection officer can be covert and still carry protective equipment and backup weapons that increase the chances to handle a critical situation in a flexible and quick way.
- * Very low profile, 3 different looks to change between.
- * Holds your personal body armor and 2 ceramic plates.
- * Inside velcro covered MOLLE bands for communication gear, magazines, tear gas spray, flashlight etc. for surveillance and tactical operations.
- * A special velcro attached pistol holster is included with the backpack.
- * Cable ports and channels for hidden microphone and ear
- * Hidden compartment on the back with zipped opening for pistol and baton
